Revised Ex Parte Appeal Requirements

New format and content requirements for appeal briefs in ex parte appeals are now in effect for cases where the notice of appeal was filed on or after Sept. 12, 1988. The new requirements were set forth in amended 37 CFR 1.192 which was published in the Official Gazette at 1092 O.G. 26 on July 12, 1988 and reprinted on Jan. 3, 1989 in the *Consolidated Listing of Official Gazette Notices* as item number 162. The changes are also set forth in chapter 1200 of the Manual of Patent Examining Procedure as revised in revision number 9, dated Sept. 1988.

Appellant's brief is required by 37 CFR 1.192(c) to contain, under appropriate headings, (1) the status of all the claims, (2) the status of any amendment filed subsequent to final rejection, (3) a summary of the invention, (4) a concise statement of the issues presented for review, (5) a statement that claims rejected under a rejection do not stand or fall together and the reasons why (if no statements is filed it will be presumed that the rejected claims stand or fall together), (6) the arguments of the appellant with respect to each issue presented for review, and (7) an appendix containing a copy of the claims involved in the appeal. The rule further sets out specific requirements for arguments against rejections based on 35 U.S.C. 102, 103, 112 and other grounds. The examiner's answer to the brief will follow a corresponding format.

Pursuant to 37 CFR 1.192(d), if a brief is filed which does not comply with the new requirements as set forth in paragraph (c) of the rule, the appellant will be notified of the reasons for non-compliance and provided with a period of one month within which to file an amended brief. The one-month period will not be extended. If appellant does not file a brief overcoming the reasons for non-compliance within the one-month period, the appeal will be dismissed.

The new requirements for the appeal brief will aid in the crystallization of the issues involved in the appeal. This will benefit the appellant and the examiner, as well as the Board of Patent Appeals and Interferences, in their consideration.

RENE D. TEGTMEYER,
Jan. 23, 1989. *Assistant Commissioner*
for Patents.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions,* and provides technical staff assistance in their use to aid the public, in gaining effective access to information contained in patents. CASSIS (Classification And Search Support Information System), which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collec patents from either microfilm or paper collections are generallcontemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
